PROFESSIONAL EXPERIENCE

Freelance   Miami, FL
Web Developer   Dec 2016 – Present

StoneRiver, Inc.   Cedar Rapids, IA
Software Development Manager   Dec 2007 – Aug 2016
- Responsible for all aspects of staff management, leading a staff of 5 to 8 technical professionals.
- Executed 3 year outsourcing plan in 6 months while maintaining product   release schedules and quality levels which saved the division $300,000 first year and $1.2M annually.
- Performed software development project management on a day-to-day basis for commercial software products, performing the entire SDLC.
- Instrumental in moving development processes across multiple products from a Waterfall approach to a Lean Agile (Scrum) methodology within four months.
- Led major software release efforts; instituted planning processes that improved quality and ensured smooth releases while adapting the team to a reorganized development department to enable all products to be profitable in 2013 and beyond for the first time in division history.

ImageFusion   Cedar Rapids, IA
Sales Consultant to Manager of Operations   Oct 2005 – Nov 2007
- Instrumental in all aspects of development of this entrepreneurial start-up, including personnel training and management, financial planning and management, payroll management, and sales and business development.

Rockwell Collins, Inc.   Cedar Rapids, IA
Senior Programmer/Analyst to Manager of Outsourcing Relationships.   1985 – 2005

- Implemented offshore and onsite outsourcing reducing development and support costs and expanding the development capacity of the organization by freeing internal technical and management resources.
- Managed 15 vendor relationships for sourcing of additional applications development personnel, including 40 to 50 contract engagements at any one time, and worked with management and vendors to resolve personnel issues.
- Held responsibility for all aspects of staff management, leading staff of up to 13 technical professionals.
- Was program manager for all EDI projects through the enterprise's major SAP deployments. These projects spanned a period of nearly three years and displaced a suite of disparate applications, on multiple platforms, providing our EDI partners with seamless integration during our SAP implementations while also greatly expanding the EDI services available. All deployments were completed on-time and within budget for the ERP implementation.
- Was an influential stakeholder in the management of projects, programs and in the implementation of portfolio management in the Information Technology organization.
- Proven accomplished in management of budgets, demands and resources in the context of shifting priorities.
